We have been a dedicated RCC partner since 2009 and are the leading provider of merchant services for the energy industry. Our philosophy is to become a true partner to each of our clients. We deliver solutions to enhance and streamline your operations. Our proprietary technology gives energy companies the unique ability to qualify for Utility and Developing Markets programs simultaneously.

We have a proven track record reducing the cost of card acceptance. Utility Pricing can reduce Mastercard and Discover fees by approximately 40%. Developing Markets pricing can reduce Visa fees by approximately 20%.

Our long-term experience with RCC is a testament to our unmatched customer service. We make it simple and straightforward to integrate our services. We look forward to partnering with you. Contact us for a complimentary analysis to see how our technology benefits your bottom line.

Features Include: Credit card, ACH, and payroll direct deposit payments managed together, allowing for easy bank reconciliation. Sensitive credit card data is tokenized and stored in a secure, PCI-compliant vault, giving you and your customers peace of mind. Complimentary Next Day Funding on credit card processing, and 1-2 day funding on ACH. Convenient automated reporting delivers transaction details to your inbox. Solutions for businesses based in the U.S. and Canada. RCC customer references available.

# Authorize.Net®

[www.authorize.net](http://www.authorize.net)

This is simply a gateway. We recommend MSG Payment Systems as the contact company that handles your accounts but most any company or bank could work with this gateway. It has the most limitations as it cannot handle credits coming from RCC. They also have a much higher rate on ACH's although they do offer the option.
